RE: Hearing on Energy Exports

On behalf of the Industrial Energy Consumers of America (IECA), we request an invitation to testify before the Senate Committee on Energy and Natural Resources on the energy export hearing scheduled for Tuesday, March 25, 2014. There are no consumer interests represented by the witnesses.

The Industrial Energy Consumers of America (IECA) represents energy-intensive trade-exposed industries who are some of the largest consumers of natural gas and electricity in the country, and who will be directly harmed by excessive exports of LNG.

Thank you for your consideration.

Sincerely,

Paul N. Cicio
President

cc: Senate Committee on Energy and Natural Resources

The Industrial Energy Consumers of America is a nonpartisan association of leading manufacturing companies with \$1.0 trillion in annual sales, over 1,500 facilities nationwide, and with more than 1.4 million employees worldwide. It is an organization created to promote the interests of manufacturing companies through advocacy and collaboration for which the availability, use and cost of energy, power or feedstock play a significant role in their ability to compete in domestic and world markets. IECA membership represents a diverse set of industries including: chemical, plastics, steel, iron ore, aluminum, paper, food processing, fertilizer, insulation, glass, industrial gases, pharmaceutical, building products, brewing, independent oil refining, and cement.
