The Honorable Joe Manchin
Ranking Member
Committee on Energy and Natural
Resources
U.S. Senate
Washington, DC 20510

Re: IECA Supports Nomination of Allison Clements to FERC

Dear Chairman Murkowski and Ranking Member Manchin:

On behalf of the Industrial Energy Consumers of America (IECA), we support the nomination of Allison Clements, who is an attorney with extensive experience in the energy industry, including serving as Director of the Natural Resource Defense Council's Sustainable FERC Project. We believe that Ms. Clements is fully qualified and will serve consumers public interests.

IECA is a nonpartisan association of leading manufacturing companies with \$1.1 trillion in annual sales, over 4,200 facilities nationwide, and with more than 1.8 million employees. IECA membership represents a diverse set of industries including: chemicals, plastics, steel, iron ore, aluminum, paper, food processing, fertilizer, insulation, glass, industrial gases, pharmaceutical, building products, automotive, brewing, independent oil refining, and cement.

We urge you to act quickly to advance her nomination. There are several important issues pending at FERC for which her insight would be valuable.

Sincerely,

Paul N. Cicio
President
