

IECA GOVERNMENT AFFAIRS COMMITTEE
CONFERENCE CALL
JANUARY 29, 2019
MINUTES

Participants:

1. Alex Stege, CF Industries
2. David Bridges, Kimberly-Clark
3. Joe Price, TimkenSteel
4. Kevin McGilton, Riceland
5. Marnie Satterfield, IECA
6. Paul Cicio, IECA
7. Ryan Modlin, Owens-Illinois
8. Tom Howard, Domtar

MEETING AGENDA

1. Review of Anti-Trust Compliance Statement

2. Update on LNG Export Issue

- AEO 2019 LNG export projections
- LNG applications list
- List of energy Committees leadership and personnel (see attachment)

IECA's past focus on the Natural Gas Act (NGA) and meeting the public interest is a good path forward. Ask the Congress to define the public interest. The global LNG market is not a free market.

3. IECA Letter to House Committee on Energy and Commerce to Hold Oversight Hearing

This week IECA will send this letter to the House. Later, we will also send the same ask to the Senate.

- **Action Item: IECA will send House letter the week of January 28.**

4. March Two Day Fly-In on LNG Exports

Should we also discuss climate change GHG leakage issues? The proposed days are as follows: March 19-20, 2019 or March 20-21, 2019.

There are new Members of Congress on both House and Senate energy committees that need to be educated. The week of March 18 is a recess week, so it would be hard to get Members that week, but staffers would be readily available. We could follow up with Members at a later date. We decided to go with the dates of March 19-20, 2019.

- **Action Item: IECA will set up meetings with staffers for this fly-in.**

5. Letter to State Attorneys General Offices

The letter would bring to their attention our concerns with excessive LNG exports.

➤ **Action Item: IECA will send this letter out within the next two weeks.**
